Gentlemen:

As a nonresident property owner in Volusia County, I am writing you to show my support for the plans to renourish the designated critically eroded beaches in Volusia County. The property taxes we have paid over the years help fund many of the public services in the county, even though my family does not utilize most of those services.

Healthy beaches in Volusia County will ensure our property values remain strong, and that is not only of benefit to me personally but also to the county and all its citizens. I realize the challenges you all face regarding the complexity of funding such a great project as this, however, I trust the plan put in place will be equitable among all resident and nonresident property owners alike.

I applaud you for your courage and insight to address a problem that, if left unresolved, would mean not only the loss of an irreplaceable natural resource but the loss of jobs and tax revenues for Volusia County as well. Please continue to move forward the plans to generate the funds necessary to begin the renourishment process and implement a long-term beach restoration management project as expeditiously as possible.

Sincerely,
